Everything we do as a company revolves around our Quality Focus. We believe that producing Rigid Aluminum Conduit and Fittings is a Craft. We spend a great deal of time training our Craftsmen how to thread, tap, and chamfer...and how to properly check the product. Why? Because you deserve it, and it matters.

Patriot Aluminum loves large scale projects. Long runs of 5 and 6 inch conduit really get us excited. That's why we invested in a large diameter and large radius producing Wallace Bender. It takes about 30 seconds to bend a 6" Standard 90. Yeah...that's fast.

Patriot is still the only factory that uses CNC Lathes to produce all sizes of aluminum and stainless couplings. This technology provides unsurpassed quality control and production repeatability.

Perhaps best of all, we do it in house.
