## Patriot Aluminum Attends NAED Congressional Fly In

Washington, DC (September 11, 2013) Rigid Aluminum Conduit manufacturer Patriot Aluminum Products along with about two dozen fellow members of the National Association of Electrical Distributors headed to Washington DC to meet with their elected officials.

“This is my second year attending the Fly In,” said Tom Click the company’s CEO & Owner. “It’s a terrific opportunity to meet with my Congressman and Senators. Virginia is a great place to do business, and it’s important to talk with our officials to keep it that way. The NAED does an incredible job of organizing the meetings, and developing a program that truly supports the issues which are most important to our industry.” This year’s event was the third annual Fly In organized by the NAED.

Patriot Aluminum Products started operations in 2010 and offers the full line of rigid aluminum conduit, nipples, elbows, and couplings. Patriot touts the fact that its products are **100% Made in America**, and that it is the only **American Owned & Operated**, and the only **Family Business** producing this product line. Patriot employs about 25 people and also has regional distribution centers in Atlanta, Boston, Chicago, Houston, Louisville, New Orleans, New Jersey, Phoenix, and Tampa.
